

SAFETY, ANY WAY YOU CUT IT.TM

WORKSAFETM

HELP KEEP YOUR WORKFORCE SAFE WITH STANLEY

When working continuously with cutting tools in a fast-paced environment, accidents can happen. You can help reduce the risk of cuts, lacerations, and punctures on the job with the STANLEY[®] line of safety knives. Designed with our WORKSAFETM approach in mind, we've provided an array of safety knives to fit your needs and solve common safety challenges—all under the trusted STANLEY[®] name.

CONCEALED

Completely recessed blade helps reduce risk of injury.

AUTO-RETRACTING

Pressure-sensitive blade automatically retracts once disengaged from cutting surface.

SPRING-LOADED

Spring-loaded blade retracts automatically when pressure on squeeze trigger or slide button is released.
